

ACCOUNTS RECEIVABLE

Each member file contains more than just a billing address - it also stores photos, signatures, family information, even locker numbers and spending preferences! Your staff can then access this wealth of information with just a click of a mouse. In addition, unlimited history files let you view previous months' statements and display tickets exactly as they were originally rung up.

MEMBER DEMOGRAPHICS

Establish complete records for all members of the account; customized dynamic demographic fields, dues class, member groups, interests, committees, sponsors, dues and fees - and utilize the power of the information available to completely support your membership initiatives - from POS entry to email campaigns and more.

BILLING PLANS & SERVICES

Comprehensive and intuitive billing plans (dues, minimums, initiation, bond) and inventoried services (lockers, boat storage, stock certificates) provides for easy, consistent maintenance of all recurring revenue regardless of frequency, amount or member participation. For any plan established, any member may have an exception within the established process to avoid redundancy or manual manipulation.

INTEGRATION

Think of all the areas of your club where Member data is needed - whether at the Restaurant, the Pro Shop, for Banquets, for Marketing, for Committees, or your online presence via your Web Site - not to mention all the related accounting of dues and fees associated with a private club. This comprehensive and completely integrated Accounts Receivable module will provide the information needed to ensure that all the aspects of your club operation are successful, and that your communications efforts via email are specific to your membership.

The personalized touch will put
your club's service in the spotlight
