

TEE TIME MANAGEMENT

clubsystems group's Tee Time Management system allows your pro shop staff to easily manage Bookings, Course Rules, Lotteries, Reports, and more, providing them with more time to focus on what is most important - servicing your members.

CUSTOMIZATION

Customizable Tee Sheet configuration by course, time intervals, type of event. Set open and closed dates, and the number of days before available. Set restrictions and play limitations for any of your members based on classification. Create add-ons such as caddy, cart fee, guest fee and more. Set seasonal rules that are invoked automatically by date.

RESERVATIONS

Easily make a tee time reservation in seconds; automatically syncs with the on-line tee sheet available via the CHO E3 website. Set restrictions and play limitations for any of your members based on classification, or allow a lottery for specific dates and times. The inquiry view allows for easy viewing of past and future reservations for all or specific members. Send an email confirmation, or a reminder or cancellation for future reservations.

INTEGRATION

There is real time integration between Tee Time Management (desktop) and Tee Times Online (via CHO E3 online reservations). Staff view related member demographics and preferences; Tee Time Management reservations generate POS tickets at time of check-in; POS transactions post directly to the members' accounts in Accounts Receivable; check details from related member charges appear via the CHO E3 web statements online, so members can view their activity in detail.

Quickly create player reservations with streamlined tee time processes
